

NATIONAL ACCOUNTS OF SRI LANKA 1975 - 1984

Part 1

FOREWARD

The present publication which is the 9th in the series is more comprehensive than those published previously in that it contains in addition to the "quick" estimates prepared for the year 1984 a detail set of very important Accounts/Tables prepared for the first time for the period 1975-1983. Most of the Tables that are included in the publication are in conformity with the definitions given by the New System of National Accounts (SNA), The "quick" estimates prepared for 1984 have been based on provisional data and are hence subject to limitations.

The Department regrets for not been able to publish in 1984, Part II of the publication which normally contains actual data for the period 1975-1983 due to the additional work that had to be undertaken to introduce the new Accounts/Tables. During the past few months the Department as the authoritative official source on national accounts has undertaken many detailed studies on very important topics such as the cost components of Gross Domestic Product, the Household Sector Income and Outlay Accounts, a sectoral disaggregation of National Savings and detailed classification of foreign aid and grants. The results of these important work have been included in this publication. Inspite of severe data limitations work on the improvement of these new subject areas will be continued.

Since this publication contains many important new tables for the first time, data included in these table will be of much importance to planners and policy makers. The Department while expecting that this publication will continue to provide a useful guide to planners and policy makers, as it is the most comprehensive work available on this important field, welcomes any suggestions that may be made by users for its improvement.

The present estimates were prepared with the advice and guidence of Mrs. D.S.L. Weeratunga, Assistant Director and under the direction of Statisticians Mrs. G.N. Perera, Messers. D. Amarasinghe and J.A. William by the National Accounts Division of this Department.

Ag Ilenale

PERFORMANCE ECONOMIC REVIEW 1984

The "quick" GDP estimates compiled by the Department of Census & Statistics for 1984 at current market prices was Rs. 147,515.5 (million) as against the 1983 figure of Rs. 119,201.5 (million) and in percentage terms it was 22.2 as against the 23.8 recorded for 1983. In constant 1975=100 prices the GDP rose from Rs. 41,061.8 (million) in 1983 to Rs. 43,132.6 (million) in 1984, thus indicating a rate of growth of 5.0% compared with a 4.8% growth, recorded for 1983. This rate of growth which was achieved amidst the current disturbances in the Nothern part of the country is indeed praise worthy.

As the GDP implicit deflator indicated, the inflationary rate which was 17.8% for 1984 was slightly higher than the rate observed for 1983 which was 16.7%. In current prices the per capita GDP was Rs. 7,527.1 in 1983, and in 1984 it was Rs. 9,241.0 or, a 22.8% more than what was estimated for 1983. The per capita GDP in constant prices rose from Rs. 2,594.7 in 1983 to Rs. 2,697.4 in 1984. This was a significant increase compared with 1983 and in percentage terms it was a rise from 2.5% in 1983 to 4% in 1984. In dollar terms the per capita GDP in current market prices surpassed the previous year's level by reaching \$ 370 up by 23% from \$ 301.

While the Receipts from exports represented a record 40% increase in 1984 due mainly to improved tea prices, imports registered only a 5.3% more than the previous year's level thus improving Sri Lanka's balance of payments position.

Main Features of Sectoral Growth:

Agricultural Sector:

The performance of the agricultural sector in 1984 at both current and constant prices was not very encouraging due mainly to disturbing weather and unsettled conditions that prevailed in certain parts of the country.

In current prices the contribution by this sector to GDP rose from Rs. 30,467.6 (million) to Rs. 35,873.8 (million) or by 17.7%, as against 20.6% experience in 1983. In constant 1975 prices it declined from the 1983 figure of Rs. 10,994.4 (million) to Rs. 10,126.3 (million) in 1984 or in percentage terms it was a negative 8.0% compared with the positive 6% growth observed for 1983. However the enchanced tea production together with high prices experienced during the period saved the agricultural sector from a further decline.

The contribution by tea to the agircultural sector in current prices which was Rs. 3,338.3 (million) in 1983 rose to Rs. 5,634.5 (million) in 1984 or by 68.8%. The Colombo Market price of a Kilo of black tea its worth mentioning which was Rs. 43.27 in 1983 reached the highest level of Rs. 77.20 in 1984. Favourable prices that prevailed

during this period helped also to increase the revenues received from coconuts and other food crops eventhough the physical quantities produced of these two sub-sectors declined by 9% and 20% respectively. In the livestock sector a notable increase was observed due mainly to improved milk production from 168.8 million litres in 1983 to 195.3 million litres in 1984. The highest contribution to the agricultural sector in current prices was 25.2% came from other food crops sector, viz. vegetables, fruits and highland crops, followed by paddy and tea, whose contributions were 18.6% and 15.7% respectively as shown below:

The Percentage Contribution by Selected Sub-Sectors
to Agricultural Sector in Current Prices 1982-1984

| | • | 1982 | 1983 | 1984 |
|-----|------------------------|------|------|-------------|
| | | % | % | % |
| | _ | | | |
| 1. | Теа | 8.2 | 11,0 | 15.7 |
| 2. | Rubber | 3,3 | 4.5 | 4.8 |
| 3. | Coconuts | 11.0 | 12.5 | 3.0 |
| 4. | Minor export crops | 5.2 | 4.0 | 3.1 |
| 5. | Paddy | 21.4 | 20.7 | 18.6 |
| 6. | Other food crops | 30.8 | 29.2 | 25.2 |
| 7. | Livestocks | 5.0 | 4.2 | 3.9 |
| 8. | Firewood & forestry | 4.3 | 4.1 | 3.7 |
| 9. | Fisheries | 6.3 | 5.7 | 3.9 |
| 10. | Plantation Development | 1.1 | 1.0 | 0.9 |

In constant terms, i.e. after making allowances for price increases, except tea, livestock and firewood and forestry all other sub-sectors showed disappointing performance. In percentage terms tea, livestock, firewood and forestry improved by 14.8%, 17.3% and 7.6% respectively over the previous year. While production of paddy and minor export crops indicated a decline, there were significant short falls in production of coconuts, other food crops and fisheries. The rates of decline was in the order of 15, 20 and 24 respectively for these subsectors as shown below.

Rates of Growth of a few selected crops in the

Agricultural Sector

| | | 1982 | 1983 | 1984 |
|------|------------------------|-------|-------|-------|
| 1. | Tea | 89.4 | 95.4 | 114.8 |
| 2. | Rubber | 100.3 | 112.4 | 101.4 |
| 3. | Coconuts | 112.3 | 92.8 | 85.2 |
| 4. | Minor export crops | 120.0 | 95.7 | 98.0 |
| 5. | Paddy . | 97.4 | 115.0 | 97.2 |
| 6. | Other food crops | 103.8 | 103.1 | 80.4 |
| · 7. | Livestock | 103.8 | 104.3 | 117.3 |
| 8. | Firewood & forestry | 113.8 | 117.4 | 107.6 |
| 9. | Fisheries | 107.0 | 102.5 | 66.0 |
| 10. | Plantation development | 161.8 | 109.8 | 93.0 |

The decline by 24% in the fisheries sector was mainly due to the disturbances that prevailed in the Northern and Eastern regions of the country. The enforcement of a strict surveillance zone restricted the fishing activities in these regions. The drop was felt most in coastal deep sea and off shore catches.

The performance by the other food crops sector i.e. mainly the high-land crops sector was affected by the poor weather conditions that prevailed during this period. According to the statistics collected by the Department and by the Ministry of Agriculture production of Kurakkan, Menarie, Pulses, Oil seeds, root crops such as Manioc and Sweet Poratoes, Red Onions, Cinnaman Sugar cane, Cocoa, Cardamom, Pepper, Arecanuts, Coffee declined during the period under review.

Minning & Quarrying

A salient feature of this sectors, contribution is a decline in value added in current prices eventhough the quantity of precious stones increased during the period. It fell from its previous year's level of Rs. 1,420.2 (million) to Rs. 1,289.8 (million) during the period under consideration. The receipts from exports of precious stones which constitutes well over 50% of this sector's contribution declined from Rs. 940.3 (million) in 1983 to Rs. 616.5 (million) in 1984. However, in constant value terms the value added showed an improvement when its value for 1984 rose to Rs. 605.0 (million) from the 1983 level of Rs. 575.2 (million). Though physical production had increased significantly these precious stones failed to reach the best quality standard that was exported previously thus resulting at current prices, a decline in contribution by this sector to the Gross Domestic Product.

Manufacturing

Manufacturing sector recorded an unprecedented growth in 1984. In current prices it rose from Rs. 17,932.8 (million) to Rs. 24,377.9 (million) or in percentage terms from 22.5 in 1983 to 35.9 in 1984. The registered factory industries which was Rs. 10,638.0 (million) in 1983 recorded Rs. 14,487.0 (million) in 1984 or 36.0% more compared with the 21.3% observed for 1983.

A notable increase to this sector came from petroleum refinary which in quantity terms this industry produced 1,696,818 metric tons in 1984 as against 1,345,427 metric tons in 1983 and in index terms it was 126.0 compared with an index of 75.1 in 1983. Thus the petroleum refinary value added figure for 1983 in constant prices which was Rs. 559.3 (million) rose to Rs. 704.7 (million) in 1984.

In constant 1975 prices the entire manufacturing sector indicated a positive growth of 16% compared with the negative growth of 3% observed for 1983. The organised sector showed a significant increase from Rs. 3,649.8 (million) in 1983 to Rs. 4,580.7 (million) in 1984. This organised sector in manufacturing, which declined by 5% in 1983 at 1975 prices shot up by as much as 25.5% in 1984 which is rather commendable. The major increases in production were observed in food, beverages and tobacco and in the manufacture of petroleum products.

Construction

The construction industry in current prices was Rs. 11,621.1 (million) in 1984 but in 1983 it was Rs. 9,902.1(million) or in percentage terms from 14.5% in 1983 it shot up to 17.4% in 1984. In constant prices, value added in construction activity rose from Rs. 2,171.6(million) to Rs. 2,198.5(million) or from 0.7% in 1983 to 1.2% in 1984. Total availability of building materials i.e. imported and local, in 1984 was Rs. 8,421.8 (million) but in 1983 the figure was Rs. 7,188.7 (million). The value added in private construction activity moved up from Rs. 7,010.8 (million) to Rs. 8,498.4 (million) or by 21.2%, government construction too indicated a rise from Rs. 2,370.9 (million) to Rs. 2,442.0 (million). It is important to note in this connection that the rate of increase in the cost index was lower in 1984 than that experienced in 1983.

Electricity, Gas and Water

The value added of this sector in current prices improved much in 1984. From the 1983 figure of Rs. 1,610.8 (million) it shot up to Rs. 2,344.9 (million) and in percentage terms it was a rise from 4.4% in 1983 to 45.6% in 1984. In constant prices it was estimated as Rs. 242.2 (million) in 1984 as against Rs. 226.4 (million) for 1983 or in percentage terms it was 7.0% in 1984 as against 2.1% in 1983. In this connection it may be noted that in quantity terms the production of electricity rose from 2114 G.W.H. to 2260.6 G.W.H. in 1984.

Transport and Communication

During the period under review this sector showed a considerable improvement in both current and constant terms. In current prices its contribution for 1984 was Rs. 15,526.5 (million) as against Rs. 11,635.3 (million) for 1983 or in percentage terms it reached a level of 33.4% in 1984, from the 19.4 experienced in 1983. In constant prices it rose from the 1983 level of Rs. 4,042.6 (million) to Rs. 4,618.5 (million) in 1984 which meant a 14.2 percent increase.

A detail analysis of this sector reveals the following vital information. The 1973 gross income from passanger transport of the Sri Lanka Transport Board rose from Rs. 2,196(million) to Rs. 2,587.0 in 1984. The passenger incomes of private bus transport too indicated a considerable improvement. The total number of buses registered during the year was 3972 and it was a 16% increase over the year 1983. The gross income from air travel shot up from Rs. 2,034.3 (million) to Rs. 2,919.3 (million) in 1984. Income received from Lorry transport too recorded a 22% increase when the gross income increased from Rs. 11,846.0(million) to Rs. 14,472.6 (million). Income from shipping too registered Rs. 1,451.4 (million) as against Rs. 2,074.7(million) in 1983. The estimated gross income from goods transport was Rs. 17,354.9(million) up by Rs. 3,425.1 (million) from Rs. 13,929.8 (million) or by 25% and the estimated income from passenger transport rose from Rs. 8,873.0(million) to Rs. 13,338.6 (million) or by 50% during the period under review.

In constant terms value added in the transport sector was up from Rs. 4,042.6 (million) to Rs. 4,618.5 (million) and in percentage terms it was a 14.3% increase. The increased number of private buses and lorries put on the roads mainly contributed to this enhanced revenue. It is also interesting to note that according to the estimates, value of material inputs used in operation by this sector also increased by as much as 33% compared with the year 1983.

Wholesale and Retail Trade

According to the estimates prepared, the gorss income from this sector which was Rs. 27,397.9 (million) in 1983 recorded Rs. 32,984.0 (million) in 1984, of which the value added element at current prices was Rs. 23,288.2 (million) for 1983 and Rs. 28,036.4 (million) for 1984. Income from Tourism during the period under review declined by 23%. At constant 1975 prices this sector showed an increase of 8.4% when it went up from the 1983 level of Rs. 10,161.7 (million) to Rs. 11,020.2 (million) in 1984 and the highest contribution to this sector had been recorded from imports of goods and services.

Private Services

The private services at current prices was Rs. 3,881.6 (million) in 1984 as against Rs. 3,277.2 (million) in 1983 and in percentage terms it was an increase of 18.4.

The value of laundry services at current market prices rose from Rs. 276.0 (million) to Rs. 329.5 (million) which was a result of a rise by 6% in laundry charges during the year. Expenditure on entertainment continued the same upward movement from Rs. 227.7 (million) to Rs. 283.7 (million) in 1984. With the increase in activities in the economy the repairs and maintenance services were also enhanced thus accruing an income of Rs. 740.9 (million) in 1984, which was an increase from the Rs. 643.5 (million) estimated for 1983.

The expenditure on private services worked at 1975 prices for 1984 was Rs. 1,491.4 (million), a rise of 6.3% from its 1983 level of Rs. 1,491.4 (million).

Gross Domestic Expenditure

Gross Domestic Expenditure which is the sum of private and Public Consumption expenditure and Gross Capital Formation rose from Rs. 137,639.1 (million) in 1983 to Rs. 155,860.5 (million) in 1984 thus indicating a 13% increase.

The estimated total consumption expenditure in 1983 was Rs. 105,801.8 (million) in 1983 and it rose to Rs. 119,900.9 (million) in 1984 thus indicating a 13% increase in 1984. Gross Domestic Capital Formation which was estimated at Rs. 31,837.3 (million) in 1983 registered a Rs. 36,059.6 (million) in 1984. Exports of goods and non-factor services brought in Rs. 44,582.0 (million) indicating a 40% jump from the earnings obtained in 1983 which stood at Rs. 31,830.0 (million). Imports moved up by 5.3% from its previous year level and it was an increase from Rs. 50,267.6 (million) in 1983 to Rs. 52,927.0 (million) in 1984.

ECONOMIC PERFORMANCE IN 1983

Economic performance in 1983 was influenced by many adverse factors such as the drought and the July ethnic disturbances. These unforseable events reduced the annual rate of growth to 4.7%. The Gross Domestic Product (G.D.P.) at current market prices rose from Rs. 97,527.5 (million) in 1982 to Rs. 119,201.5 (million) in 1983, thus showing a 22.2% increase. In constant 1975 prices, G.D.P in 1983 was Rs. 41,061.8 (million) as against Rs. 39,198.8 (million) in 1982, indicating a 4.7% increase. Per capita G.N.P. at current prices rose from Rs. 6,287 in 1982 to Rs. 7,527 in 1983, which meant a 20% increase over the period. In dollar terms it rose from U.S.\$ 302 to \$ 319 between these two years. The G.N.P. deflator which is one index of the inflationary situation in the country was 248.8 in 1982 and it rose to the figure of 290.3 in 1983. In percentage terms this represented a rise in the level of prices from an annual 9.7 in 1982 to an annual 16.7 in 1983. Among the contributory factors for this increase were, an upward revision of customs duty and BTT, the exchange adjustments in July 1983, and higher costs of fertiliser. The cost components of G.D.P for 1983 which were worked as a test exercise indicates that the wages and salaries segment for 1983 was Rs. 53,728.9 (million) or 45% operating surplus which covered interests, profits, dividens etc. was Rs. 50,262.2 (million) or 42%, and the indirect tax element accounted for Rs. 16,937.1(million) or 13% of G.D.P.

During the period under review Gross Savings rose significantly from Rs. 12,876 (million) in 1982 to Rs. 16,172 (million) in 1983 thus showing a 26% increase. This sharp increase in savings is partly attributed to very favourable prices received from Tea in the export market.

Gross Savings is the sum of savings of General Government, Corporate, Public and Private Institutions and Households. In 1983 general government contributed Rs. 1,297 (M), the Corporate Sector, both Public and Private Rs. 7,144 (M) and Households Rs. 7,731 (M). It is also important to not that during the year 1983 the households savings increased by 20% from the previous year level of 3% Gross Capital Formation rose by 11% from Rs. 28,174 (M) in 1982 to Rs. 31,374 (M) in 1983. Domestic sources contributed Rs. 16,172 (M) and foreign sources Rs. 15,202 (M) towards the financing of Gross Capital Formation.

Sectoral Contribution

Inspite of a physical drop in production of tea and coconuts, the contribution by the Agricultural Sector at current prices to G.D.P. increased tremendously due mainly to improved prices in the world market for tea and a notable escalation in domestic prices of coconuts. A kilo of tea fetched as much as Rs. 43.27 in 1983 against Rs. 23.62 in 1982 and the average price per 1000 coconuts was increased to Rs. 1,670 from Rs. 1,125 in 1982. Eventhough there were declines in quantities produced of certain items coming under minor exports and other food crops,

favourable prices which prevailed during the period provided a windfall to the producers of these products. These price increases were therefore reflected in the total contribution of the agricultural sector to G.D.P which rose from the 1982 figure of Rs. 25,257.9 (million) to Rs. 30,467.6 (M) in 1983 or by 21% compared to the 11% increase in 1982.

In constant 1975 prices, the agricultural sector's contribution was significant. Thus 1983 figure of Rs. 10,994.4 (M) represented a striking 6% increase, compared to the 3% increase which occured in 1982. The accelerated Mahaweli and other development projects have helped immensely to increase the production of paddy, whose contribution at constant prices, rose to an all time record level. Compared to the 3% decline in output in 1982, total paddy production increased by as much as 15% in 1983. Rubber too played an important role in increasing the contribution of the agricultural sector. Rubber production in 1983 estimated at 140 million kgs. indicated a considerable increase of 13% over the previous year. This increase was attributed to intensive tapping coupled with systematic manuring of the trees.

Significant decreases in production however were observed in tea, coconuts and in some important items among minor export crops and in the output of coastal and deep sea and offshore fishing. The year 1983 proved to be a poor one for tea production. Prolonged drought coupled with the unsettled conditions due to ethnic disturbances, during the second half of the year contributed to the overall decline in this production of its for industry. Thus tea production dropped to 179 million kgs. in 1983 from 188 million kgs. in 1982 indicating a 5% decline. Coconut production too declined from 2,510 million nuts in 1982 to 2,313 million nuts in 1983. This shortfall of 8% has been attributed to the drought conditions which had prevailed in major coconut producing areas and the decline in the application of fertiliser.

The year 1983 was very favourable for the Gem Industry. The export of precious stones increased from 970,142 carot in 1982 to 1,520,989 carot in 1983. It was mainly this increase which had a significant impact on the successful performance of the Minning & Quarrying Sector which in constant 1975 prices increased to Rs. 573.2 (M) from a decline of Rs. 478.8(M) experienced in 1982. In percentage terms the 4% annual decline experienced in 1982 was in sharp contrast to the significant 20% increase which occurred in 1983, at constant 1975 prices. It may be noted that the corresponding increase at current prices was 23% as against the 8% increase experienced in 1982.

As regards the Manufacturing Sector, at current producers' prices, its contribution to G.D.P. rose from the 1982 figure of Rs. 14,643.8 (M) to Rs. 17,932.8 (M) in 1983. In percentage terms this represented an increase of 22% compared to the marginal increase of 4% experienced in 1982. Export processing increased in 1983 by 32% compared to the significant annual decline experienced in 1982. This notable increase was attributed mainly to the increase in prices experienced for tea in the world market as reflected in the Colombo Market Price where the average annual price of 1 Kg. rose from Rs. 23.62 in 1982 to Rs. 43.27 in 1983. Rubber processing too increased considerably during the period under consideration. For coconut processing a notable increase was recorded in receipts from coconut oil exports, which rose to Rs. 541.8 (M) in 1983 from Rs. 364.2 (M) in 1982.

The overall decline in value added of the registered factory industries sector, which occurred in 1983 was primarily a result of the decline in output in state-owned industries. Considerable decreases in output were experienced in cement, petroleum and fertiliser. In value terms the contribution by petroleum refinaries dropped to Rs. 8,308.0 (M) in 1983 from the 1982 level of Rs. 11,153.8 (M) or by 26%.

In constant 1975 prices, i.e. after setting off of the price increases, the total contribution by manufacturing sector was only Rs. 7,063.5 (M) against the Rs. 7,281.1 (M) shown for 1982. The 3% decline by this sector was attributed mainly to the disappointing performance of the state owned industries during the period.

Construction value added at current prices rose sharply to Rs. 9,902.1 (M) in 1983 from the 1982 level of Rs. 8,650.6(M). A marked increase in values of private sector construction activity has been noted during the year which could be attributed mainly to increase in prices of building materials such as M.S. Steel Bars, Metal Paints, Hardware Nails and higher costs incurred on labour inputs.

In constant terms, that is after setting off price increases the value of construction activity had a marginal decline from Rs. 2,157.3 (M) in 1982 to Rs. 2,171.6 (M) in 1983.

The Transport & Communication Sector was Rs. 11,635.3 (M) in 1983 compared to the Rs. 9,748.0 (M) in 1982, which meant a 19% increase in current prices. The share of goods transport to the total gross transport figure for 1983 was 61%, and the balance was accounted for by passenger transport. It is important to note that the private lorry transport accounted for about 50% of the total contribution. There was a marginal decline in 1983 in the contribution by the railway compared with that in the year 1982, while the passenger receipts of the Sri Lanka Transport Board rose to Rs. 1,812.6(M) from the 1982 figure of Rs. 1,662.5(M). In 1975 constant prices, the value added contribution by this sector was Rs. 4,042.6(M) as against Rs. 3,657.8(M) in 1982, indicating an 11% increase. The total number of lorries and private buses that were registered with the Registrar of motor vehicles in 1983 rose by 28% and 48% respectively during this period.

The Wholesale & Retail Trade Sector during the year under review contributed Rs. 23,900.6 (M) compared to Rs. 19,731.6 (M) in 1982. A detailed study of this sector revealed that the ethnic disturbances had a downward impact on receipts of Hotels and Restaurants and on Tourisum. In constant 1975 prices, value added of the trade sector increased from Rs. 9,408.4 (M) in 1982 to Rs. 10,161.7 (M) in 1983 or by 8%. This sector played a vital role in the economy and its contribution to G.D.P. at both in current and constant prices was around 25% and was second only to Agriculture, in magnitude.

Finally the role played by the Services sector, it should be mentioned, had been very significant. In current market prices its contribution rose to Rs. 3,277.2 (M) in 1983, from the 1982 figure of Rs. 2,537.0 (M) indicating a 29% increase. The highest contribution to this sector at both current and constant prices had come from repairs and maintenance of vehicles component followed by private medical care and health services and laundry services. The estimates at constant prices were derived by deflating the current series by specially constructed cost indices, using the prices collected to compute the monthly Colombo Consumers' Price Index. In constant prices this sectors contribution rose to Rs. 1,402.5(M) during the year from Rs. 1,321.7(M) of the previous year.

Gross Domestic Expenditure

Gross Domestic Expenditure which was the sum of Private Consumption Expenditure, General Government Consumption Expenditure, Gross Domestic Fixed Capital Formation and Changes in Stocks, amounted to Rs. 137,639.1 (M) in 1983 as against Rs. 116,285.0 (M) in 1982 representing an 18% increase over the year. Total consumption expenditure for 1983 amounted to Rs. 105,801.8 (M) and constituted 77% of the G.D.E. as against the 75% shown for 1982. Gross Domestic Capital Formation, which was the sum of Gross Domestic Fixed Capital Formation and Changes in Stocks was 23% of G.D.E. for 1983.

In constant 1975 prices, i.e. after making allowances for price increases, the G.D.E. was Rs. 47,545.7 (M) in 1983 as against Rs. 45,495.3 (M) in 1982. In percentage terms this amounted to 4.5% increase over the previous year's figure. The total consumption (Private & Public) Expenditure constituted 91% of the G.D.E. while gross capital formation accounted for only 9% of the total expenditure.

An analysis of Private Consumption data revealed the following salient features. Expenditure on Food was Rs. 47,137.1 (M) in 1983, and accounted for 50% of the total consumption expenditure, followed by Transport and Communication which accounted for 13.6% of Private Consumption Expenditure.

Within the Food Group, the higher expenditure values were observed for the bread and cereals sub-group, comprising rice, maize (wheat-flour) and bread mainly. Expenditure on this group amounted to Rs. 16,232.7 (M) and accounted for 34% of the expenditure spent on food. Fish, milk and meat expenditure was Rs. 8,925.6 (M) and constituted 19% of the expenditure on food. Expenditure on Fresh Fruits and Vegetables was Rs. 10,025.3 (M) and Beverages and Tobacco amounted to Rs. 8,517.5 (M). In percentage terms these sub-groups represented 21% and 18% respectively of the food group expenditure.

Expenditure on Transport and Communication was Rs. 12,744.8 (M) and on purchased transport i.e. on local and long distance transport amounted to Rs. 9,300.8 (M).

An analysis of the Accounts of Household and Private Un-incorporate Enterprises in 1983 showed that the total current receipts amounted to Rs. 103,896 (M) as against Rs. 86,263 (M) in 1982 thus showing an increase of 20% over the year 1982. Compensation in the form of household wages and salaries constituted 52% of the household receipts, property and entreprenurial income 35% while the balance came from current transfers.

Government Consumption Expenditure for 1983 was Rs. 12,726.9 (M) as against Rs. 10,407.4(M) in 1982. The highest expenditure was on General Public Services which accounted for 37% of the total government final consumption expenditure. In constant 1975 prices, total government consumption expenditure dropped in 1983 to Rs. 4,014.3(M) from Rs. 4,208.4(M) in 1982 or by 5%.

Gross Domestic Fixed Capital Formation for the year 1983 in current prices was Rs. 31,583.8 (M) as against Rs. 27,925.7 (M) in 1982. In percentage terms this was a 13% increase, as against the 17% increase shown in 1982. The fixed capital formation by the Government Sector during the year increased from Rs. 4,245.9 (M) in 1982 to Rs. 5,427.8 (M) in 1983. The expenditure by statutory Boards and Corporations for purposes of estimates was grouped under the private sector. Government Fixed Capital Formation on Hospitals rose from Rs. 48.8 (M) in 1982 to Rs. 730.2 (M) in 1983. Rs. 630 (M) of this amount was mainly on account of the Hospital that was built in Sri Jayawardena-Pura, Kotte. Government also had spent a significant amount on non-electrical and electiral machinary during the year under consideration. The investments on these categories rose from Rs. 106 (M) in 1982 to Rs. 541.6 (M) in 1983. Private Sector investment activity rose from Rs. 23,679 (M) in 1982 to Rs. 26,156.0 (M) in 1983 and in percentage terms this meant a 10% increase. The private sector construction of residential buildings rose from Rs. 5,980.7 (M) to Rs. 6,882.9 (M) over the year. Significant investments were observed on transport equipment, particularly trucks and buses and on electrical and non-electircal machinery.

Expenditure on Exports and Imports

Exports of goods and services rose to Rs. 31,830.0 (M) in 1983 from Rs. 27,147.9 (M) in 1982, showing a 17% increase in current prices. However at 1975 constant prices, exports showed a drop from Rs. 9,212.5 (M) in 1982 to Rs. 8,936.1 (M) in 1983. The export volume indices for 1982 and 1983 re-worked at 1975 prices, were 104.5 and 101.9 respectively.

The imports of goods and services in 1982 amounted to Rs. 45,905.4 (M) while the corresponding figure for 1983 was Rs. 50,267.6 (M) and in percentage terms it meant an increase of 9.5 as against a 16% increase shown for 1982.

SUMMARY INDICATORS

⁽i) Valuation adjustment refers to distribution margin.

⁽ii) Excludes exports on items 6,7,8 & 9.

⁽iii) Refers to new planting & re-planting of Tea, Rubber & Coconut by the Private Sector.
Contribution by the Government Sector is included under construction in the main G.D.P Table.

⁽iv) Covers those commodities that are not estimated due to lack of data and is taken as 1.5% of items 1 to 14.

⁽v) Based on ad-hoc inquiries.

Note: All foreign loans and grants received are classified broadly as far as possible in accordance with the International Standard Industrial Classification, but due to lack of detail data the above figures are subjected to limitations. Project loans and commodity loans such as industrial raw materials, acricultural inputs, and fertilizers for food production are included. Loans and grants for food aid, debt relief, drought relief, imports and exports and balance of payments support are excluded.

MOTE: All foreign loans and grants actually utilized by Sri Lanka are classified broadly as far as possible in accordance with the International Standard Industrial classification, but due to lack of detail data the above figures are subjected to limitations. Project loans and commodity loans such as industrial raw materials, agricultural inputs and fertilizer for food production are included. Loans such as food aid, debt relief, imports and exports and balance of payments support are excluded. But these items are included in grants. The data on grants have been computed on a hypothetical basis using the percentages on grants pledged, due to inconsistancy in figures from the above sources
