Preface

The Department of Census and Statistics now conducts a series of Annual Surveys on manufacturing industries as part of its current programme of Statistical Surveys. These are island-wide surveys designed to collect data on a continuing basis from manufacturing establishments in both the private and the public sector. The range of items on which statistical information is canvassed, as well as the concepts and definitions used, are shown in the specimen copies of the 1979 survey questionnaire and instructions given at the end of this document.

Of a total of approximately 3105 manufacturing establishments on the Department's present frame, a total of 2462 establishments responded in 1980 to the 1979 survey questionnaire, thus yielding a very satisfactory overall response rate of 79.3%.

The report of the first of these Annual Surveys which was conducted in 1979 (for the reference year 1978) was published recently. The present publication contains a preliminary release of the results of Second Annual Survey of Manufacturing Industries conducted in 1980 (reference year 1979). The results are given in a set of nineteen selected Statistical Tables which cover the main structural features as well as the performance of the organised sector of manufacturing industries in Sri Lanka.

It is hoped that this preliminary report on the 1980 Survey, will provide useful information as needed by planners and policy-makers in the field of industrial statistics.

Some Explanatory Notes for Statistical Tables

- Inputs - Value of Raw Materials + Fuel and Electricity.
- Public Sector - Figures are shown separately for State Industrial Corporations.
- Government Undertakings - Figures are shown separately for manufacturing concerns acquired by the State under the Business Undertakings Acquisition Act of 1971.
- Private Sector - Covers all privately owned factory establishments.
- I.S.I.C. Classification - The classification used in the Tables is based on the International Standard Industrial Classification of the United Nations (Divisions at the two digits level and the Groups at the four digit level). A detailed list of Industries is given in the annexed list.
- Percentage - In Table Nos. 1A, 5, 6, 7, 18 and 19 where the percentage of the individual group to the division total is less than 0.5 percent, dash is used.
